

MBU123 Series Discontinue Announcement

Dec. 1, 2017

Dear Sirs/Madams,

Thank you very much for choosing MBU123 series as your ideal switching power supply.

Sinpro periodically re-evaluate our product lines and have decided to discontinue MBU123 series and will remove these series from official website on 2018/12/31.

Current safety certification status of MBU123 series is showed below; we will not update and maintain their certificates from now on. For the new projects, we recommend you our new product-HBU200 series as the alternative. If you still have demand on this series, we can offer it for old projects. However, please understand our certification maintenance policy before placing orders and we will automatically remove the safety mark on label if it is expired.
